## Recommended – comments

- ✓ I'm new to the practice and so far so good
- ✓ easy appointments
- ✓ easy appointments and good service overall
- ✓ Warm and personable drs. Take the time to listen and get to know the family. So helpful and patient. Able to get an appointment quickly
- ✓ I was listened to, given clear advice & left feeling supported.

## Passive – comments

- ✓ It was my first visit to GP in London. I am foreigner. have no idea what is good or bad so far. That's why I chose 3.

## Not Recommended

## Survey Details

We surveyed patients who presented in the surgery in the survey month, to seek their views on their recent experience of our service. We used the following NHS Friends & Family Test Survey template:

		The NHS Friends and Family Test			
We would like you to think about your recent experience of our service. How Likely are you to recommend our service to friends and family if they needed similar care or treatment?					
<b>Extremely Likely</b>	<b>Likely</b>	<b>Neither likely or unlikely</b>	<b>Unlikely</b>	<b>Extremely Unlikely</b>	<b>Don't Know</b>

What is the main reason for your answer to that question?

We provide a choice of Friends and Family Feedback options for our patients, such as SMS (auto or user initiated), Feedback Form (paper form in waiting room) and on surgery website.

## NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method, as the scoring methodology.

The percentage measures are calculated as follows:

$$\text{Recommended (\%)} = \frac{\text{extremely likely} + \text{likely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

$$\text{Not Recommended (\%)} = \frac{\text{extremely unlikely} + \text{unlikely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

For information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here: <http://www.england.nhs.uk/ourwork/pe/fft/fft-test-review/>
